By the Boat which leaves here to-morrow (Friday) we shall send Fifty Copies to supply your Legis. Please see that those sent on already, are not wasted, given away to others than members, &c. &c. We cant afford to supply the entire Sovereign people with copies.

Rhode Island work will be out the first week in March. We shall supply your Legislature.

If you will send us the names of about 100 leading men in the Legislature, we will supply them with the Emancipator. Will you do it?

What ails your Liberator folks? Your paper of last week got here Friday — Thursday! It does not usually arrive here till Wednesday. Once in a great while, Tuesday!!

Bro. Leavitt requests as a special favor, that you folks there will send him a copy as soon as out. The Emancipator usually gets there Friday. Yours ought to be here Saturday.

In haste. Yours truly

W. L. Garrison

Dear brother,

It was suggested that J. G. Whittier should come on to Boston & aid in your Anti Slavery Legislative matters. I have urged it upon him, but he was previously engaged to go to Philadelphia & visit the Natl. Enquirer, for a few weeks; & went this morning. If the "immediate" point is well & ably urged before you Committee, meeting all the objections which grow out of it, such as "unsafe," "Cant take care of themselves", "Gradualism"; and if Myths is well circulated, I think you will go thro' without striking the bottom. Whittier would have come, were it not for his Engagement at Phila. Some one must "Lobby" in the room. I conjure you not to fail in having the question of immediate abolition fully & properly discussed. It is the question for your Legislature. You have got materials enough for it, - Birney, Phillips, Yourself, - & there will be no excuse if you dont join the Committee on that point. If A. E. Grimke speaks, I think She had better take up objections to that doctrine. If bro. Birney has not time to go over it thoroughly, you must take hold. So I think you can do it up strongly & clearly. Dont be afraid of boring the Committee. They will listen.
